

# Crown Hill United Methodist Church Remodel

1400 NW 85<sup>th</sup> Street  
Seattle, WA 98117

*Before* — Parking lot entrance was dark and unwelcoming.

*After* — Interior of parking lot entrance. Lighter colors and windows improved the mood.

Crown Hill United Methodist Church had gone through renovations in the past that increased square footage, but left the lobby dark, and the entrances uninviting. We redesigned two entrances to incorporate more windows and updated finishes, bringing light into the lobby and making the entrances more welcoming.

*After* — Exterior of parking lot entrance.

**RESIDENTIAL DESIGN • NEW AND REMODEL • BUILDING PERMIT ASSISTANCE**

# Crown Hill United Methodist Church Remodel

1400 NW 85<sup>th</sup> Street  
Seattle, WA 98117

*After* — Interior of main entrance.

Crown Hill United Methodist Church had gone through renovations in the past that increased square footage, but left the lobby dark, and the entrances uninviting. We redesigned two entrances to incorporate more windows and updated finishes, bringing light into the lobby and making the entrances more welcoming.

*After* — Exterior of main entrance. Four new windows, windows in two doors, improved finishes, and a new handrail at the entry ramp help project a more welcoming appearance to the street.
