

I.V. Clean Pharmacy Renovation

Swedish Medical Center, First Hill
747 Broadway
Seattle, WA 98122-4307

After — Clean room portion of IV Pharmacy, with laminar flow hoods and central work table.

Swedish I.V. Clean Pharmacy prepares intravenous solutions for use by patients throughout Swedish Medical Center First Hill. It is located in the basement of the medical center, an area having no room for expansion. This renovation updated finishes, improved work flow, and created two separate rooms — a work area, and a pressurized clean area where I.V. bags are filled with solution.

After — Work room portion of renovated IV Pharmacy, with supplies, medicine refrigerators, and central work table.
