

Homework Instructions

Chemistry and Honors Chemistry

(Mr. Goguen)

[Printer Friendly Version \(Adobe Acrobat PDF file\)](#)

Homework is 10% of your grade.

Please review these instructions so that you understand what I expect to see when I check your work.

- The **first number** in the assignment is the **chapter**, the *second number* is the *section* of the chapter.
Example: 2.3 (2-3) is chapter 2, section 3
- The assignment is due the **day after** it appears in the weekly assignment list.
- You must complete the following for each assignment:
 - ✦ Write out new terms for the section and their definitions.
 - ✦ Read the section.
 - ✦ Write out the solutions for any practice problems in the section.
(Do not leave a problem blank, write a statement explaining what you do not understand)
 - ✦ Write the answers to questions/problems in the Section Review at the end of each section.
(Do not leave a question/problem blank, write a statement explaining what you do not understand)
