The PD Virtual Learning EXPERIENCE

YOUR TICKET TO THE PD VIRTUAL LEARNING EXPERIENCE AT BOOTH #201

DON'T MISS YOUR CHANCE TO STEP INTO A WHOLE NEW DIMENSION OF CHALLENGE AND LEARNING IN THE TREATMENT OF PARKINSON'S DISEASE (PD).

Join us at booth #201 for the **PD VIRTUAL LEARNING EXPERIENCE**, a unique adventure in physician education and an opportunity to put your knowledge and skills to the test. All participants will receive an "Illustrations in PD" calendar featuring images from the Netter Collection.

THE PD VIRTUAL LEARNING EXPERIENCE INCLUDES:

"SMARTER THAN A MED STUDENT?"

Do you think you know more about PD than today's med students? Correctly answer just 6 questions to win the PD-based trivia game that educates while it tests your knowledge. You may find that you appreciate the help offered by prerecorded medical students! Or not...

PD VIRTUAL HOME

The PD Virtual Home uses interactive 3-D panoramic gaming technology to provide patients with tips for adapting their home to PD. The tips come from "300 Tips for Making Life with PD Easier" and should make the home safer and more accessible for patients.

THE PD PYRAMID GAME

See if you can get your name on the leaders' board with this fun and engaging game of skill and knowledge! PD Pyramid challenges you to beat the clock while correctly answering multiple-choice questions about PD treatment and general trivia.

PD VIRTUAL BIBLIOGRAPHY

See and hear leading thought leaders share their insights and highlight key points on journal articles of interest to you. This interactive bibliography of recent scientific articles focusing on Parkinson's disease and pramipexole brings medical reading to life in a whole new dimension.
