April 2007

**RE: CAPM RENEWAL NOTICE FOR 2007**

Dear Fellows and Members of the California Academy of Preventive Medicine (CAPM):

CAPM depends on dues as its sole source of revenue. How does CAPM use the dues?

- To pay fees and partially offset travel expenses to **represent public health and preventive medicine at the California Medical Association (CMA)**. At the 2006 House of Delegates, Richard Sun was our delegate and Ron Hattis the alternate. We submit our own resolutions for CMA policy and vote on the resolutions of others. CAPM can be very influential at CMA as policies are adopted by organized medicine.
- To **communicate with CAPM members**. Besides mailings such as this one, our Web site <http://capm.us> contains job announcements, past issues of our newsletter, and other documents and links of interest.

In addition:

- We are the **California component society of the American College of Preventive Medicine (ACPM)**.
- We provide **leadership on preventive medicine issues and programs**.
- We **convene meetings for members** such as our annual meeting held October 20, 2006, in San Diego and by conference call. In 2007, we will hold an additional meeting in the spring in coordination with a meeting of the California Conference of Local Health Officers.

**Renewal involves the following steps:**

- 1. Please make out a check to CAPM for the appropriate amount.** Dues are \$30 for Fellows and Members, \$15 for retired physicians, \$10 for resident physicians, and \$5 for medical students.
- 2. Complete the CAPM renewal form** (see next page).
- 3. Return your check and form in the enclosed envelope** to our Sacramento address.

I hope you will continue to support CAPM as the voice for preventive medicine in California. If you know of other physicians interested in preventive medicine who are not yet members, please inform us. Also, if you would like to become more active in CAPM (e.g., by running for an office), please indicate this on the renewal form.

Sincerely,

Felix Aguilar, MD, MPH  
President, 2006-2007
