RE: Donation of Susquehannock IX Chenille Prototype Patch

Dear Dominic,

The purpose of this letter is two-fold. We would like to confirm that Shelby Patch Company, LLC, per the Keystone Area Council's authorization, produced two prototype chenille patches on January 12, 2007. One prototype patch was sent to your Lodge for review and the second prototype patch was retained in Shelby Patch Company's master patch file. The two prototype patches were oval shape and measured 4.5" x 6.0". Since then, Susquehannock Lodge decided to change the design. The new design is now a 5.3125" x 4.75" triangular shaped chenille patch.

Shelby Patch Company, LLC would like to donate the prototype oval shaped chenille patch already in your possession to the Susquehannock Lodge, in hopes that it will be used as a fundraiser via a member auction. The value of the prototype patch is approximately \$100.00.

Yours in Scouting,

Paul Jude Ruzinsky (Vigil Member / Chippewa Lodge 29)

President
