

## PREVIOUS SPEAKING COMMENTS

**Shawn - Age 17:** I liked that Mr. Williams talked very brief but was still able to make us understand the reality of life. Mr. Williams would be the first speaker I would recommend to speak in front of the entire school body because he's not boring and he doesn't brag.

**Keisha - Age 17:** I like the fact that Mr. Williams talked in jargon that I could actually understand and he did not talk about what he did, but how he got there. I enjoyed his side comments; he had an air about him that captivated my attention. He was completely down to earth and you could tell that he cares and it's not a front.

**Kris - Age 17:** I enjoyed listening to Mr. Williams. I learned that no matter where you grow up, you can still achieve a lot. This information could help my friends in not giving up just because they are going through bad times. You are very inspirational.

**Tasha - Age 16:** On a scale of 1 to 5, I would give Mr. Williams a perfect 10. One thing he said that will help me is when he said stay focused and keep a clean record for that security clearance. Another thing he said that was motivating was what you do in school will affect your opportunities in the future 100 percent. Mr. Williams is an extraordinary speaker who I am glad to have the privilege to hear speak. I will never forget this career-day and most definitely keep his words of wisdom with me thru my entire lifetime.

**Francis - Age 17:** I enjoyed listening to you and learned that the one main thing that will help me in life is when you said no matter where you come from and who you are, you can do anything. Another thing that helped me was when you asked us what we didn't want to do in life and how you didn't want to end up, and you told us to use that as motivation in our life and to push us forward.

**Bowie High School:** Mr. Williams really did an excellent job. He encouraged and motivated my students about careers and making better lifelong decisions.

**Laurel High School:** Mr. Williams has an amazing presentation that assisted the students in focusing on their future and not just one specific career. His information was well developed for the age group and subject matter.
