**"VARIATIONS ON A THEME"**

**by Bob Aldridge**

An examination of an aspect of stereoviews that is so well known to card collectors that they take it for granted. Which means that it seems never to be remarked upon, leaving the new stereoview collector ignorant of its existence. The show looks at the variants that exist of a particular **Egyptian View** — mainly from the perspective of **Bert Underwood**.

**Stereo Metamorphoses 2003**  
**by Jon Golden**

Presented at NSA stereo theater, this program is about the sounds as well as the visuals. Images for this show were chosen to compliment a beautiful and mysterious piece of music by **synthesist Eddie Jobson**. Each 3D image was also chosen to purposefully interact with adjacent images to create an unusual, surprising, color-saturated, and lush three-dimensional experience.
