

# RC DUSTER'S TAILSPIN

Volume 3, Issue 3

March 2006

## From the Offices of the R/C DUSTERS February

### WORDS FROM THE PREZ!!!

Sitting here with CA on my fingers and Chuck called - get something ready for the newsletter. Ok, even though it's cold outside I'll think of something positive, or maybe not. A few of us had more stick time in January, than lately. But this is about to change soon. The days are getting longer, which means warmer weather is a-coming. One of the sure things is "the swaps." Steve Baker and the Fox Valley Aero Club put on a great one. Anything from small parts to complete aircrafts were there. There were a lot of bargains.

The response to the club dinner has been great. If you haven't decided yet, I'm sure we can still get you in.

As soon as we get closer to flying, announcements for field work will be sent out.

Respectfully,  
Lee Ernest  
President RC Dusters

### Special Note

The meeting is at *The Park District Office*

On March 8<sup>th</sup>, so see you there.

## Minutes from February

Meeting was called to order at 7:05 p.m. with 13 members present. A motion to approve minutes as printed in newsletter. The treasurer's report was given and approved. Club charter has been received and must be returned by the end of March. We have 21 approved and have paid their dues. Dues must be paid at the March meeting.

Highway report - no news. The club dinner - date and menu was approved. Rick's Place on March 18th. Cocktails will be at 7:00 p.m. and dinner at 8:00 p.m. Chuck will send out the menu and directions. Reply by March 1st. There are 8 choices from the menu, select your choices. There will be a 20% gratuity added to your bill. (separate checks!)

Note: 36 members and spouses will be in attendance at the Club dinner. A great response and it should be a good time. Steve Baker has made arrangements with Mike Kostecki from HobbyTown, in Aurora, to give a talk on fuel types, oils, and uses of different fuels.

Respectfully submitted,  
Chuck Brieschke, Secretary

Cocktails at 7:00, Dinner 8:00.

**June 22-25, 2006** USRA Air Races -  
Rantoul, IL  
<http://www.usrainfo.org/main.htm>

## Check This Out

This website, [www.nitroplanes.com](http://www.nitroplanes.com), has every thing from ducted fans to electric helicopters. One of my favorite airplanes is a YAK 54, which has a fiberglass fuse and a nice color scheme. This 40 size ARF has a 52 inch wingspan. It has plug-in wings, so is easy to haul and store for those whose hangars are getting full, and at \$120 plus shipping, it's affordable.

See you at the dinner,

*Marty Covert JR*

### RC DUSTER'S TAILSPIN 2

The amount of aluminum that Americans throw out in three months is enough to rebuild all American commercial **planes**.
