

# RC DUSTER'S TAILSPIN

Volume 3, Issue 5

May 2006

## From the Offices of the R/C DUSTERS April

### WORDS FROM THE PREZ!!!

As you all know, spring seems like it is around the corner. There should be some great flying days ahead for the month of May. The field looks great. I talked to the neighbor of the field and he said that we can take out steel posts at the end of the field.

I have picked up the vests from the state. A time and day for road cleanup will be discussed at a later meeting. Below is a picture of the sign.

Respectfully,  
Lee Ernest  
President RC Dusters

### Special Note

The meeting is at *The Park District Office*

On May 10<sup>th</sup>, so see you there.

## Minutes from April

The meeting was called to order at 7:05 p.m by President Lee Ernest. The minutes from the April meeting were approved as printed in the newsletter. Treasurer's report was read and approved. Members that have not renewed their membership have been dropped from the roster. Need CD for June 10<sup>th</sup>. Fun Fly - Dean volunteered and Jim will handle the food.

The club dinner was great!! Everything worked out very well. Road cleanup is still waiting for approval from the State. Lee will have coffee and donuts at the end of the cleanup.

The chain for the end of our driveway has a new sign on it plus reflective tape.

Our Charter has been returned from AMA along with our field insurance. List of air shows and swaps were read.

Check the cycle time on your battery packs. We have had 3 battery failures at the field. Sunday mornings and Wednesday evenings are good flying days, weather permitting. The field has been rolled and cut. It is in good shape. Marty is getting weed spray for the dandelions. Steel posts at the end of the field are to be removed.

Lee brought a Hanger & T34, 70 size 4 stroke with mechanical retracts for show and tell.

Respectfully submitted,  
Chuck Brieschke, Secretary

## Items For Sale

Midwest Extra 300 1/4 scale with Zenoah G-38  
spring start. Currently flying good. \$350, (815)  
631-1279

## Great Flying

Over the past few weeks, there has been some nice flying weather. Just as a reminder, it is a good idea to cycle those batteries that have been sitting all winter. There has been a few battery related problems at the field already. If the battery does not hold a good charge, a new battery will be cheaper then the time fixing your plane. Here are some pictures from the field

John L. with his 27% cap 232

Steve with his P-51 Mustang

I hope to see more of you at the field!!

*Marty Covert JR*

### RC DUSTER'S TAILSPIN 2

An airplane mechanic invented the Slinky while he was playing with engine parts and realized the possible secondary use for the springs.
