

RC DUSTER'S TAILSPIN

Volume 3, Issue 9

September 2006

From the Offices of the R/C DUSTERS August

FROM THE PREZ!!!

Well, the second pickup for "adopt a highway" is history. It went off without a hitch. With the help we had, it took just about an hour. Thanks, guys!

Our second Fun Fly of the year is scheduled for Sat. Oct. 7, 2006. Try not to miss the meeting if you have some ideas.

The Wednesday "Club Night Fly" is turning out to be a real success. There were nine members on one Wednesday and 5 aircraft in the air at one time. There are still a few Wednesdays till the time change, so try and make it.

Our instructors are Jerry R. & Steve B. They have been working with Dean G. on his flying skills. He has improved 1,000%. Just goes to show what good instructors can do.

Respectfully,
Lee Ernest
President RC Dusters

Special Note

The meeting is at **Park District**

See you Sept 13th at the meeting.

Minutes from August

The meeting was called to order at 7:05 p.m. by President Lee Ernest. There were 14 members present. The adopt-a-highway pick-up was discussed and will be this coming Saturday at 9:00 a.m.

The next Fun fly will be Oct. 7th. There was some discussion to have a picnic style lunch and the club would furnish pop and chips. This will be finalized at the next meeting.

There was some discussion about the new signs put up on the property east of us. It was decided that they would not be a problem.

Note: This will be the last meeting at the field. The next meeting will be at the Park District, which will be Sept. 13, 2006.

Respectfully submitted,
Chuck Brieschke
Secretary

The first airplane to circumnavigate the earth nonstop on a single load of fuel was the Voyager. It flew 25,012 miles on 1,200 gallons of fuel, had a wingspan of 110 ft, and weighted 1,858 lbs, without fuel. The trip took only nine days to complete and only had a few gallons left with in landed in California in 1986.
