

UPDATES AND EVIDENCE IN PEDIATRIC OPEN HEART SURGERY

January 13th, 2007
Connecticut Society of Perfusion

University of Connecticut Health Center
Keller Auditorium

Objective: The objective of this one day symposium is to review and discuss the current practice of pediatric open heart surgery, management of CPB {practices versus evidence} and present an overview of adult congenital surgery. A goal will be to establish practice enhancement for both adult and pediatric CPB management by active interchange of ideas and practices among colleagues.
