KONA MOUNTAIN BIKE EDITION FORD FOCUS

Ford has teamed up with one of the most extreme mountain bike builders in the world, Kona - to bring you the ultimate piece of mountain biking equipment - the Kona Mountain Bike Edition Focus.

The Kona Focus is more than a sticker job. After all, it's based on Automobile Magazine's 2000 Automobile of the Year. Plus every consideration a serious downhiller could ask for.

FEATURES:

Focus ZX3 3-door hatchback.

A gutsy 130-horsepower DOHC Zetec engine

Single-disc CD player.

Unique 6-spoke 16" machined aluminum wheels.

Jac™ bolted-on roof cargo rack. Bolts into a special attachment point in the roof. Unlike other racks, you don't have to drive any holes into the sheet metal or worry about water leakage from clamps. Holds up to 165 pounds.

Mont Blanc fork-mount bike rack.

Kona-edition front seat covers. They're mud-proof, and you can toss them into the washer.

Kona-edition front floor mats. They're made of grooved, heavy-duty black rubber that you can hose off. All the more reason to collect a soil sample.

Mountain bike tire tread side molding. A subtle reminder that your downtime occurs on two wheels.

Dirt, the color is exclusive to the Kona Focus. Wear it proud. It also comes in CD Silver and Rainforest Green.

KONA BLAST 2001 FEATURES:

Kona DH 7005 aluminum tubing for a high strength frame.

INSync coil/elastomer suspension fork with 3.5" travel to absorb the big hits.

Shimano Deore Rapidfire shifters offer trouble-free gearing.

Kona/Joytech cable-activated disc brakes for powerful, no-fade braking.

Heavy-duty wheels with Sun Ditch Witch rims and WTB Enduroraptor tires.
