Robert Berry is the Hypnotist.

By Trenz Pruca

Robert has been entertaining audiences professionally for over eighteen years. As a magician, stage hypnotist and public speaker, Robert is in high demand across the country. Recently Robert was featured on a nationally syndicated radio show, where he combined his talents in mentalism and hypnosis to astound audiences and capture the imagination of even the most skeptical.

Having entertained for stars like Yanni, George Foreman, Michael Garfield and Catherine Hickland, Robert is quickly becoming the celebrity's choice when it comes to entertainment.

A graduate of the Jerry Valley Stage Hypnosis School and the

Marc Savard's Advanced Hypnotic Entertainer Academy, Robert has been certified by the Hypnotic Entertainers Success Conference.

I will say this is no comedy club act. Forget all that you think you know about stage hypnosis. Robert Berry will make a believer out of even the harshest of critics. So you can relax and enjoy the show because this is pure, clean cut entertainment from beginning to end. With Robert's beautiful assistant Karen ever present on stage to keep things running smoothly, this show runs like a polished Vegas production.

From the moment Robert speaks his catch phrase, "lend me your imagination", you are off on a remarkable voyage of discovery that you won't soon forget. This show will change the way you think about yourself and the world around you.

"Robert Berry left me with my mouth wide open, shaking my head in disbelief".

David Adlin, National Sales Manager, Maico Diagnostics
