

Boyle inc is a name associated with quality and service in the tool and die industry.

Our services include engineering, machining, grinding, jig grinding, contour grinding, wire-edm, ram edm, die assembly and testing, and stamping with quality control inspections at all phases.

CARBIDE & STEEL REPLACEMENT PARTS

Boyle inc manufactures high-quality steel and carbide parts for the metals industry all over the world. We specialize in replacement parts for existing tooling and stock a large selection of tool steels and carbides. We offer quick deliveries, minimum down-times and competitive prices.

DIES

Make Boyle inc your full-service die and die component supplier. We specialize in quality die replacement parts, and can design, build and test your die to your complete specifications.

STAMPINGS

Boyle inc works primarily with Bruderer punch presses, Parker-Majestic grinders and Mitsubishi wire-edm machines to ensure the best quality for our customers.

Our shops in Freeport, PA service the needs of customers worldwide manufacturing a wide range of products— from automotive to electronics, computers to communications, appliances to connectors.

Our history of quality and timely delivery are made possible through the efforts of our loyal and dedicated employees.

Our goal will continue to be performance and customer satisfaction.
