

Hands explore  
Scratching down the back  
Curve of her hips  
Fingertips grazing  
Dancing like ballet over hill and vale  
Engulfing her breast  
Teasingly simple  
Wet warmth under the covers  
Skin cold  
Pressing heat of togetherness  
Sheets entangled  
Between legs and arms and each other  
Driving home  
Towards her luscious mouth  
Tongue flicking  
Glistening teeth  
Lips slip slide  
Falling to brush the neck  
Licking  
Breathing deep  
Essence of Jessica  
Tightly hold  
Scent entices  
Heart swelling  
Cannot contain all the love I feel  
For her  
Alone
