

# The AAACEI Delaware Valley Section Presents “Quantity Takeoff - Off a BIM Model” Mark your calendars now for October 15, 2008

One of the major and early benefits of Building Information Modeling is the ability to quickly and accurately generate quantity take-offs from the model. Arie Schinnar will demonstrate using a step by step process how to do QTO from a BIM model. He will also discuss how to set up the model and do QA to ensure that the desired level of accuracy is maintained.

Arie is an architect who is an expert in BIM. Arie does consulting for implementing BIM in design and construction.
