Photos

Old Wheeler Hotel
495 Highway 101,
Wheeler, OR 97147.
1-877-OLD HOTEL (1-877-653-4683)

Investigation Results: No EVP although requested. Some EMF meter activity in the basement area. Winston stated to us that before they opened the hotel, he saw the figure of a tall man, dressed in black pioneer clothes, reflected in one of the large mirrors in the sitting room upstairs. He got to see the figure long enough before it faded away. The apparition was not looking at Winston, but studying something else.

Haunted?: Traveling spirits, and residual imprints only.

For more information and to make reservations, please visit their website from here: [Old Wheeler](#)

This is one of those places where the memories stay with you for a very long time. I missed this place as soon as we drove away.

There are a lot of visitors traveling through here causing light paranormal activity, but this is not a hotbed full of ghosts. Actually that is a good thing; if it was, it would take away from the serene beauty and romanticism of this beautiful place. However, you won't be disappointed if you take pictures around this location, as well as around the other eclectic, "magical" shops that envelope the hotel.

You could not ask for more generous and gracious hosts than Winston & Maranne Laszlo. These people were so genuine and wonderful that it is no surprise that they have an array of visiting spirits who follow them around and hang out there. Upon our arrival into our room, we were surprised immediately by a visitor- Maranne had hung up a large stuffed ghost on one of the towel racks of the bathroom as a special welcome!

Most of the pictures where we received activity were down in the basement, which is closed to the general public (so don't ask to go down there). Once in a while we felt a cold breeze go by us in the upstairs hallways, but nothing outwardly unusual. The indoor hallways are great traveling areas, and we were surprised that we didn't receive any photos there as we felt presences there often; also of great interest to the spirits are the foyer and the staircase. Maybe they have a great appreciation of antiques?

The North Coast Citizen did a write up on us during our stay here. You can read an excerpt of our

interview. [Click Here](#)

** HEARTFELT Thank You's to Winston and Maranne Laszlo of the Old Wheeler Hotel (the most awesome host and hostess!), and to David Dillon of the North Coast Citizen for such a fantastic and fair write-up, and for not making fun of our little "hobby."
