HOW TO SELL TICKETS

1. Contact family, friends and neighbors to let them know you are in the show and ask them if they would like to buy tickets. Remind them that tickets often sell out, so this is a great opportunity to buy them early.
2. Write all of the orders on the form attached to the envelope. If you need more space, use the additional forms inside. Make sure you note the correct date and the number of tickets in each order.
Print information clearly on the form.
2. Collect a check or cash for each order and place it in the envelope. We can't give you the tickets unless they are paid in advance. On-line orders are paid by credit card through MKTix.com but you should still record the sale on the form and write "MKTix" in the box next to the total price of the sale.
4. Return your order form and checks at rehearsal on Wed. Sept. 30. Orders received after that date will not count towards the contest. Volunteers will check your order and return your tickets to you, and then you should distribute them to your customers.
