Remember Hillside during election

As you are aware, there is an important election coming up for your county commissioner in November.

If you enjoy paying for their healthcare and \$34,000 salaries for part-time positions, and they do as they want and not what you would like them to do, then vote them back in. But before you do, ask them what part they played in granting a contract to Hillside Productions, which oversees the amphitheater in Freedom Hill County Park.

This is one of the worst contracts agreed to for the taxpayers of Macomb County. Why would your elected representatives agree to have the taxpayers pay for the electric, water, trash pick-up and the salary of the Macomb County Sheriff 's Department every time there is a concert, and to give up threequarters of our parking revenue?

No wonder our county is in such financial turmoil when our elected officials are making deals like this. Think wisely who you put back in office.
