New Year coming!

Nominations and Plans for 2010!

The New year is fast approaching and we all have lots of planning to do! Let's see... Who's the nominating committee? We all are! Nominations for President, Secretary, Treasurer, activities manager, training committee, PIO and what jobs do you want to do?

Each and every one of you can help out with the planning and doing of this next years club meetings and events. Not everyone will be a speaker, nor will there be a lecture at every meeting. This is an opportunity to share what you know and do in ham radio. If you have an idea for a meeting or event, NOW is the time to share so we can plan to include it in 2010's events!

Write down your suggestion, plans, thoughts on what the next year and beyond should include. List anything you would do or help with, show, want to learn or just have fun doing that relates to ham radio in some way. Tell us about resources you have and know about.

The club will support your ideas, classes, demonstrations, hamfests, outings, contests and cook-outs together. You don't have to do everything yourself! Everyone can pitch in and lend a hand to make your suggestion a reality.

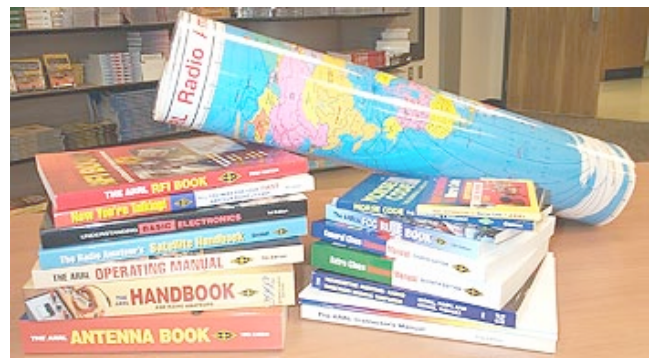

The club will endeavor to keep you informed of plans, events, meetings, locations, projects, Nets and more on a regular basis. All you have to do is participate! Help us get the word out to the CSRA Hams (Central Savannah River Area) and beyond. The future isn't going to reveal itself in a neat orderly plan, we have to make it. Hams are inventive, resourceful, community minded people who can plan for events and disasters of all kinds. With your help, our meetings and events won't be disasters and will be the events everyone will talk about and want to attend.

Community Activities

This summer has seen a lot of community events that have been supported with Ham radio operators. Bicycling, Iron Man Triathlon, Marathons, public safety events, Field Day and more. This is a great giving of time, energy and resources by all of you. The public is aware and the groups are grateful for our continued support.

When a group or event needs our support, please let the club know well in advance to allow planning and participation of all Hams who want to volunteer. These events bring us (Amateur Radio enthusiasts) out into the public view and promote our hobby. Other groups and clubs that are not normally associated with Ham radio might be interested in having a Ham radio introduction given to them at a meeting of theirs.

Public speaking experience is not required when presenting Amateur Radio to the public. A 2 meter handheld and a contact standing by is a great demo. Making a DX contact is always good, but not reliable for demos. Handouts, ideas and lesson plans are available for free. Assistance in the form of "Elmers" is always available.

Help Promote Amateur Radio!

The Amateur Radio Crossword Puzzler
