Specimen Plants In Bloom

Species Plants

- 500 Plants 12" or less in height at maturity (10 years) or suitable for rock gardens
- 501 Subgenus Hymenanthus (Elepidotes)
- 502 Subgenus Rhododendron (Lepidotes)
- 503 Section Pogonanthum
- 504 Subsection Maddenia
- 505 Section Vireya.
- 506 Subgenus Tsutsusi (Evergreen Azaleas)
- 507 Subgenus Pentanthera (Decid. Azaleas)
- 508 Plants in Related Subgenera (Misc.)

Special Plant Classes

- 511 Plant raised from A.R.S. Seed
Exchange seed. Date to be stated.
- 515 Plant grown under glass or plastic
(artificial environment).

Foliage Only

- 516 Plants exhibited for Foliage
Characteristics only, species or hybrids, not in bloom (not showing color).

Alphabetical List of Species

The following listing of subspecies, varieties, etc., is not intended to be complete for all species.

Forms of species not listed are acceptable under the species classifications shown.

Note

Plant classifications may not apply if the plant is under 12" at the time of showing or entered under Special Plant Classifications 500, 511, 515, or 516.
