APRIL 2009

THE UNOFFICIAL PALLADIUM

The Royal Suites Turquesa in Punta Cana recently opened up a new section featuring 232 luxurious rooms. This consists of even more exclusive facilities with 6 new pools and unique features that are only available in this part of The Royal Suites Turquesa by Palladium.

One highlight of this new section is the steam shower in 3 of the 4 Room categories. It is a closed cabin with 2 seats and it features functions like a rain shower effect, hydro massage, steam and foot massage with water pressure. It has also integrated radio, telephone, effect lights and a system of automatic sterilization after showers.

Another new detail are the white curtains, which are now in all areas of The Royal Suites Turquesa: in the exterior hallways and entrance to the villas, as well as in the Royal Honeymoon Rooms (with Jacuzzi on the balcony). This gives a fresh, light and elegant atmosphere and ensure an even more pleasant experience.

The 2nd national tournament in tennis took place at the Grand Palladium Riviera Maya on the 30th of april. Tennis players from different cities from Mexico, such as Cancun, Playa del Carmen and Mexico City, participated. There were 4 categories (men's singles under 18 years, men's single over 18 years, men's double 40 years and older, single woman of all ages).
