

# Vancouver for Peace

Clark County, Washington citizens and groups peacemaking together

*Vancouver for Peace is* an ad-hoc, nonpartisan, nonsectarian group of citizens of Clark County, Washington pursuing the dream of peace and justice for all. Through nonviolent action, our website, listservs (see website to join) and meetings we provide a way for groups and individuals to communicate, connect and organize together. **Watch our website for meeting times, events and how to be involved.** If you have energy to work for peace and justice, we'll try to support you. Your ideas and passion can find a home with Vancouver for Peace.

As we personally seek to live peacefully and justly, we work for an end to the Iraq war, for a foreign policy that will reduce support for terrorists, to strengthen democracy at home through civil rights, fair elections and a free press, and many related issues.
