P. O. Box 13256

Salem, OR 97309

Powerful high-level repeaters are expensive to install and operate, due to the remote nature of the systems. Electricity, support lines, Batteries, Cables, Hardline, Towers, Guy systems, Controllers, Antennae, Cavities, Amps, Radios, Ground systems, Cabinets, Buildings, Security, Sites and grounds are continuously in need of attention on Mountain tops.

To share in the expense, the WA7ABU Repeaters collect voluntary donations. Closed systems with memberships are not allowed in our area on two meters. Your donations go entirely into the repeater fund to support your enjoyment. Please support the repeater with what funds you can spare to help fund the system.

Please use this form to allow me to keep track of your donation.

Name: _____ Call: _____

Address: _____ Phone: _____

City: _____ Cell: _____

State: _____ Zip _____ email: _____

Suggested donation is \$20 for general use and \$30 for use with support for the phone patch.

\$20.00 \$30.00 other _____

What are your main interests in Ham Radio? What would you like to see added or changed?

Your help is needed and appreciated. Thanks!

Please join us for the noon time net on the 145.29 MHz repeater, so we can get to know you. Listen at 12 noon, Monday through Friday to 12:30 each day. No special affiliation is required; just give us your call and first name to check in. You are always welcome. Join in the Technical Net at 10 AM each weekday to discuss the hobby. Our Saturday Ham Shopping Club net at 7 PM is also a good time to join the local hams, being very friendly and informal. Use it to clean out your "Radio Closet."
