VOLUME 22 NUMBER 1

TWIN CITY ANCIENT COIN CLUB

WHEN ANCIENTS WERE SOLD BY THE POUND!

Do you remember when you first started collecting ancients? Perhaps it was in 1935 when a gold aureus of Julius Caesar could be bought for \$3.00. Or maybe 1980 when club member Whitney Lindwall sold you your first late Roman bronze of Tetricus for the same price!

Our talk this month will give us all an opportunity to reminisce. C.J. (Caius Junius C.f.) Schlosser will lead a discussion on how we all became interested in ancients and how special interests and topical collecting make ancients more interesting. Bring some coins and by all means come to this kick-off meeting.

KICK OFF MEETING

Welcome back! It's only been three months since the last meeting but it seems much longer.

The summer brought us the ANA convention in Milwaukee which many club members attended. It also brought us \$430 gold and \$6 silver. The dollar continues to creep down in Europe slowing down the flow of ancients into this country.

Ancients remain an exciting field for collectors with stable or slowly rising prices while US coins languish in the confusion of onerous grading standards and proliferating grading services.
