

Plant Industries Division, Forest Health Protection, Elkins Field Office
Located at the Elkins-Randolph County Airport

Directions from the intersection of Route 33 and 219 in Elkins (a Go-Mart is visible from the intersection).

Travel 3.1 miles on Route 219 South, just past the Wal-Mart, to Country Club Road (Route 219/11) on the right. DO NOT turn at the traffic light. Country Club Road is actually about 150 yards on the right beyond the traffic light you come to after passing the Wal-Mart. Once you are on Country Club Road travel .6 miles and turn right onto Airport Road. There is a sign there indicating that you are entering the Elkins-Randolph County Airport. Stay on this road until you reach the airport terminal parking lot.

The Plant Industries Division, Forest Health Protection (FHP) Unit, is located on the second floor of the terminal building. To reach the FHP offices, walk down the left side of the building (as you face the building from the parking lot) and go through the Blue Door (marked WVDA Elkins Field Office), then up the stairs.

If you have trouble locating the office, telephone 637-0290.
